

BIG LABOR ALLIANCE FORMED YESTERDAY

COMPOSED OF MINERS RAILROAD WORKERS AND LONG SHOREMEN

COOPERATE TO HELP IN WAGE STRUGGLES

No Specific Program is Outlined, President Lewis of the Miners' Union Says—Seventeen Big Unions Joined in Yesterday's Agreement—Make no Comment on Action

(By The Associated Press)
CHICAGO, Feb. 22.—An alliance agreement was adopted tonight by representatives of more than 2,000,000 union coal miners, railroad workers and longshoremen, declaring for "closer cooperation of our forces which will operate to more effectively protect" the union workers in wage struggles. No specific program for allied action was outlined and President John L. Lewis of the miners' union, told the conference that he did not ask a sympathetic rail strike on April 1, the date of the threatened miners' walkout.

The agreement, joined in by the officers of 17 big unions, asserted the purpose of the leaders was "to apply every honorable method" to obtain "adequate" wages for both the miners and the transportation workers. It created an executive committee to decide on the course of action by the various unions whenever any emergency arises in the wage struggles of any of the allied groups.

The plan, as adopted, does not become effective until ratified by the various organizations and in some instances, it was said, would require the approval of a delegate convention. With most of the unions, it was said that approval rests with the unions' executive boards or officers.

Final approval of the agreement came at the end of two long sessions marked by the appointment of a committee to draft the agreement.

Decline to Comment Meeting. All persons attending the meeting declined to say whether the alliance meant more than a pledge of "moral support" among the various groups and in this connection they said that the question was largely one for future decision. The organizations that are parties to the agreement are the United Mine Workers; the Brotherhood of Railway Carmen; the Order of Railroad Conductors; the International Brotherhood of Blacksmiths; the International Brotherhood of Stationary Firemen and Oilers; the Switchmen's Union; the International Association of Machinists; the Brotherhood of Railroad Signalmen; the International Brotherhood of Electrical Workers; the Brotherhood of Locomotive Firemen and Engineers; the Brotherhood of Railroad Telegraphers; the Brotherhood of Railroad Trainmen; the Railroad Employees Department of the American Federation of Labor; the Brotherhood of Locomotive Engineers; the United Brotherhood of Maintenance of Way Employees; the Brotherhood of Railway Clerks and the International Association of Longshoremen.

The agreement bearing the caption, "Memorandum," which was concurred in by members of the various organizations was announced by Mr. Lewis of the miners as follows:

"Article 1.—The associated organizations represented in the transportation and mining industries of the country have been compelled to bear the brunt of unwarranted attacks upon their integrity and unjust and inequitable changes in their wage schedules and conditions in their employment. The industrial and financial interests responsible for this condition are not yet satisfied and are conducting gigantic propaganda reductions towards further wage reductions and additional changes in working conditions that will be detrimental to the people employed in these industries. It therefore becomes necessary for the representatives of the associated organizations to assemble and take cognizance of this situation. Impelled by the necessity of electing a co-ordinator of our strength we declared for closer co-operation of our forces which will operate to more effectively protect the interests of those engaged in these essential and basic industries. After mature deliberation and with full sense of our responsibility, we declare that the mutual interests of the employer in these basic industries must be recognized and we assert our purpose to apply every honorable method

will discuss election of new president. Berlin, Feb. 22.—Chancellor Wirth announced today that the government soon would discuss with party leaders the election of a new president of Germany. He said the question which has been urgent, could not be undertaken prior to a settlement of the upper Silesian difficulty.

Gray Silver, Washington representative of the American Farm Bureau Federation testified that the 1,500,000 farmer members of that organization had unreservedly endorsed the Ford offer and had full confidence that they would get cheaper fertilizers and other commodities which he would manufacture at Muscle Shoals.

REVENUE CUTTER IS CHASING SHIP CARRYING LIQUOR

Stop Attempt to Land Liquor Valued at Over \$70,000

(By The Associated Press)
SALEM, MASS., Feb. 22.—The coast guard cutter, Ossipee, tonight was in pursuit off the New England coast of an unidentified auxiliary schooner believed to be liquor laden. The chase was a sequel to a daring attempt today snipped by eighteen customs officers and police, to land whisky and gin valued at \$70,000 by means of a large motor boat which stranded on the flats of Collins Cove.

Seven automobiles and motor trucks were lined up on the shore awaiting the liquor cargo. One truck was seized. Five seamen from the motor boat scurried over the mud flats to elude the raiding officers, who were in three row boats and one was arrested. The seven automobiles and motor truck got away. Henry McKee, driver of the truck that was seized and his companion, Samuel Potash, both of Salem, were taken to the police station.

Meanwhile the motor boat William D. Gloucester, with eight men aboard, was observed coming up toward Salem harbor and signaling to the shore. The boat swung into Collins Cove and almost immediately grounded on the mud flats. Three row boats containing raiding officers under direction of William B. Barney, United States special agent, put off in a tender, and escaped. Five others struggled across the mud flats to dryland and disappeared.

John Lafave of Yarmouth, N. S., was captured and was charged with conspiracy and violation of the navigation, customs, smuggling and prohibition laws. He refused to talk except to say the motor boat had been loaded with liquor from the auxiliary schooner.

From the motor boat the raiding officers took 1,350 burlap packages of bonded American whisky, six bottles to a package, ten cases of gin and two cases of beer.

SENATE FINANCE COMMITTEE TURNS TO SPECIFIC RATES

Lay Aside Valuation Question in Tariff Measure

(By The Associated Press)
WASHINGTON, Feb. 22.—Senate finance committee Republicans turned aside today from the valuation question to consider controverted specific rates in the proposed permanent tariff bill which previously had been passed over.

Chairman McCumber said he did not expect a decision of valuation this week. Senator Smoot of Utah, ranking Republican on the committee, gave it as his opinion that if there was a compromise as between the house and senate on the valuation question it would be on the basis of an assessment of duties on the whole sale selling price of imported goods in American markets. He still thought his plan of foreign valuation with the accompanying hoisting provisions once tentatively agreed upon, should be adopted but said sentiment in the committee seemed to favor the American selling price basis as a compromise.

It was understood that this basis would be acceptable to Chairman Fordney and other majority members of the house ways and means committee.

IRISH REACH AN AGREEMENT FOR PEACE WEDNESDAY

Sinn Fein Convention Gives Unanimous Approval

(By The Associated Press)
DUBLIN, Feb. 22.—With dramatic suddenness, a peace agreement reached at the eleventh hour between free state and republican leaders was sprung on the Ard Fheis, national Sinn Fein convention today and the huge gathering of delegates, impatient of any delay likely to endanger the treaty with Great Britain gave it unanimous approval and adjourned for three months.

The general feeling was that in preserving intact the party organization something like a miracle had been worked. The net result of the two days' meeting of the Ard Fheis is to insure that no election can be held in Ireland for the next three months and when it is held the issue will not simply be for or against the treaty but to determine the judgment of the Irish people on the actual terms of a constitution in which the treaty will be embodied. Supporters of the free state have contended that the treaty enables Ireland to frame for herself a constitution giving all the essentials of free state but the Republicans have denied this and have quoted interpretations upon the treaty in speeches by Prime Minister Lloyd George and other British cabinet ministers.

All the objections to the agreement raised on the floor today after Eamon DeValera had announced his terms emanated from prominent republicans and despite Mr. DeValera's assurances that he had carefully considered every point and was quite satisfied with Arthur Griffith's emphatic declaration that no election must be forced upon the country during the coming three months, the republicans decided to hold a meeting this evening to insist upon clarifying certain points which they considered dubious.

The point on which the republicans particularly demanded assurance was what the agreement meant by the free state constitution. It was submitted to the assembly and was quite satisfactory to the republicans. The constitution as drafted by the provisional government on its own interpretation of the treaty or was it to be a final constitution which the British government could not alter? Mr. DeValera's estimate of the effect of the agreement took the latter view. The result was regarded by leaders as showing there could be no doubt that the rank and file of both sides were overjoyed that a division had been avoided.

The British government's hurry to pass an act of parliament supporting the provisional government and to provide it with an elected parliament which would replace the Dail Eireann and disestablish the Irish republic has been made futile it was argued that the rank and file of both sides were overjoyed that a division had been avoided.

By the terms of today's agreement, Arthur Griffith is as strongly committed as Mr. DeValera not to appeal to the electorate, except with sanction of the Dail Eireann and the majority favoring the provisional government within the Dail is admittedly so small and so precarious that no resolution promoting elections to which the DeValera faction would be strongly opposed could be carried.

TREATY HELD UP WHILE LEADERS OF G. O. P. CONFER

Take Day Off to Hold Conference Among Themselves

(By The Associated Press)
WASHINGTON, Feb. 22.—The progress of the four power Pacific Treaty in the senate again was interrupted today while administration leaders conferred among themselves and prepared to seek the advice of President Harding whether to accept the blanket reservation proposed by those opposing unreserved ratification.

Contrary to the expectation of senators who have sponsored the reservation administration acceptance of it was reserved at today's session of the foreign relations committee and Senator Lodge, committee chairman arranged to confer tomorrow morning with the president. He is then expected to describe in detail the situation in the committee a majority of whose members are said to have indicated they would support the reservation regardless of the stand taken by the administration.

Heretofore officials close to the president have declared he held strongly to the opinion that no reservation was necessary although it has been said that he did not desire to become a stickler for senate acceptance of the treaty without the dotting of the "i" or the crossing of a "t." His decision is expected to hinge on whether the proposed reservation which provides that every adjustment reached under the treaty should be subject to the review of congress inasmuch as it endorses the purposes of the four power arrangement. With administration acceptance of the blanket reservation assured, it is conceded that the committee will be in a position to vote promptly and almost unanimously a favorable report on the treaty itself. But with that acceptance withheld, it is the apparent purpose of the reservationists to attempt to put thru the committee a series of more specific qualifications, leading to considerable debate and a long delay.

One of these supplemental reservations, attempting to define in detail the term "rights" as used in the treaty, was put into the committee hopper today by Senator Johnson, Republican, California. Lodge, the blanket reservation offered by Senator Brandegee, Republican, Conn., went over without action pending Mr. Lodge's visit to the white house.

No Reservations. In the back ground of the committee situation is the situation in the senate where the administration senators believe that no reservation, regardless of whether it bears the approval of a majority of the committee members will ever be adopted. Within the committee the fight against reservations is being led by Senator Kellogg, Republican, Minnesota, who predicted tonight that neither the president nor Senator Lodge ever would consent to the Brandegee proposal. Senators New, Indiana, and McCumber, North Dakota Republicans and Williams, Democrat, Mississippi, were said to share the views of Senator Kellogg, while Senator Lodge reserved judgment and all the other eleven Republican and Democrat members gave indications that they were favorably disposed toward the blanket reservations.

The senate today began debate on the separate treaty between the United States and Japan relating to Yap and other former German islands of the Pacific. Mr. Lodge explained the treaty, characterizing it as securing all the rights the United States ever desired in the former German possessions.

Senator France, Republican, Maryland, attacked it as a repudiation of Republican platform pledges and a part of a "league of nations plan" which would lay the foundation for a new world war.

PRESIDENT HARDING'S APPOINTMENTS CAUSE LIVELY SENATE TILT

Democrats Take Exception to Naming all Republicans and No Democrats—Republican Leaders Defend Action—Were Named on Allied Debt Funding Commission

(By The Associated Press)
WASHINGTON, Feb. 22.—President Harding's appointment of four Republicans and no Democrats to the allied debt funding commission was attacked by Democrats and defended by Republicans today in a lively tilt in the senate. Earlier the senate finance committee had reported favorably the nominations—of Secretaries Hughes and Hoover, Senator Smoot, Republican, Utah, and Representative Burton, Republican, Ohio.

Keen disappointment of the fact that no Democrats were chosen for the commission was expressed by Senator Simmons of North Carolina, ranking Democrat, and former chairman of the senate finance committee. Senators Walsh of Montana, Helfin of Alabama, Williams of Mississippi and McKellar of Tennessee were other Democrats who criticized the appointments, while Senators Lodge of Massachusetts, the Republican leader, and Senator Kellogg, Republican, Minnesota, defended them.

Senator Walsh announced that he would oppose confirmation of Senator Smoot and Representative Burton on the ground that they were ineligible under the constitution to act as "officers" of the government.

Senators Simmons, Walsh and Williams said they had no personal fault to find with the four appointees. Mr. Simmons said all were "able, upright, experienced and competent" but he added that at least one Democrat should have been named to the commission.

Recalling that there had been "sharp conflict" over the allied debt commission bill Senator Simmons said that under the circumstances and "in view of the general interest of all the people" in these loans, "it does seem that propriety calls for the opposition party to have at least one representative."

Senator Lodge, declaring that the country's finances were in charge of Secretary Mellon who by the provisions of the act as secretary of the treasury will be ex-officio chairman of the debt commission argued that the Republicans were responsible for any action taken.

Senator Kellogg pointed out that the allied debt bill did not receive a single Democratic vote in the senate when it was passed. He added that the president had appointed men "in sympathy with the plan of settlement," of the allied loans.

TWENTY FIVE YOUNG UNMARRIED MEN SHOW LOTS OF COURAGE

Put Ban on Galoshes and Rolled Down Stockings

(By The Associated Press)
BABYLON, N. Y., Feb. 22.—Twenty five young unmarried men of this Long Island town have set out to cure the "flapper."

After a solemn symposium the following resolution was adopted: "We the young unmarried men of Babylon, L. I., in indignation, assembled, do hereby solemnly declare that:

"Whereas, There has arisen a fad among young women of wearing their galoshes unbuttoned and of rolling their stockings downward to a point of impropriety, both of which in our opinion are slovenly and unnecessary, be it resolved,

"That we do agree not to be seen in public with any young women who practice these useless and nonsensical fads."

By way of explanation this formal statement was issued: "The young men of Babylon are not prudish but they have a better notion of propriety than did the young men of ancient Babylon."

FLOGGED WITH STRAP UNMARRIED MEN. Enley, Ala., Feb. 22.—Carroll E. Clark reported to police today that he was taken into woods near this town last night, tied to a tree and flogged with a strap by unnamed men.

No charge was lodged against him except that he was a vagrant. He said, and denied the accusation, declaring he could not obtain a job.

BONUS MEASURE BEING DISCUSSED BY REPUBLICANS

Talk of Wholesalers Tax to Finance the Project

(By The Associated Press)
WASHINGTON, Feb. 22.—The financing of the soldiers' bonus by means of a manufacturers' or wholesalers' tax was discussed generally at two sessions today of the Republican members of the house ways and means committee dealing with this subject.

It was announced that there would be no further sessions until Friday.

Representative Longworth of Ohio, ranking member of the special committee, said it was his judgment that a general manufacturers' and wholesalers' tax similar to that in force in Canada would be recommended. He thought the rates would be lower than those in Canada as treasury experts had estimated that the Canadian rates if put in force in this country would yield \$530,000,000 a year or more than \$200,000,000 in excess of the sum which it has been estimated will be needed to finance the cash payments to the former service men. Mr. Longworth said he did not think the bonus bill would be ready for the house this week or next. He stated that there was some disposition on the part of many house members to postpone action on the measure for a time to await the opening of the refunding negotiations between the United States and the debtor nations. Calling attention that the refunding commission had been appointed by the president he said there was reason to believe that before July the United States would have some of the refunded bonds in hand.

The president, Mr. Longworth went on to say, undoubtedly would not be opposed to the sale of some of the foreign bonds in this country to obtain money for the bonus. He added that before this could be done congress would have to enact a law giving authority to the secretary of the treasury to so dispose of the securities as the present law provides that he must use them in retiring a part of the public debt.

A separate vote has been demanded by opponents of a sales tax who continued today to tighten their lines for the fight which now is regarded on all sides as almost certain. Opponents said that if necessary there would be a fight all along the line.

POLITICAL CRISIS ENDS WITHOUT BLOODSHED. Lisbon, Feb. 22.—The political crisis, here ended without bloodshed. It apparently was resolved by the overthrow of the republican guard which had been carrying out partisan propaganda since the assassination of Premier Pous in December, 1918.

The government will return to the capital and the chamber of deputies will meet tomorrow.

If one candidate who has filed or judge in Macon county is successful, members of the Macon county bar will become earnest students of the sign language. The aforesaid candidate is a deaf mute.

The managers of the coming basketball meet are seeking to find the names of private householders who are willing to furnish lodging for delegates during the meet. That very fact is a commendation upon the hotel facilities in Jacksonville. It will mean a big boost for the city when a plan can be worked out whereby a spacious and modern hotel is available for the use of Jacksonville visitors. The number of visitors will greatly increase when those days come.

The average man really knows very little about the merits or demerits of a public standpoint of the proposal of Henry Ford to take over the Muscle Shoals project. However, it is worth remembering that it was not until after Mr. Ford has made the government an offer that others became genuinely interested in the securing and operating of the big project.

For the first time in recent weeks there is a conciliatory note in the statements issued by both miners' officials and operators with reference to a proposed wage agreement. Perhaps, after all, there is not so much zeal for a strike as earlier statements have indicated. This gives proof that there is a vast amount of bluff used in these biennial negotiations between the miners and the operators.

A Jacksonville banker recently said that in his belief a greatly improved condition in finance is the result of the peace conference in Washington. His theory is that the spirit shown at that conference and the actual agreements reached give international financiers something firm and stable in the forward look.

Somewhat encouraging figures have been given in the reports of several corporations made public recently. Prices for all farm products have shown distinct advances in the last six weeks—advances that in past days would have been accounted as really sensational. All of these matters give proof of the often made statement that better business days are at hand.

The supreme court has ruled as unconstitutional a Chicago ordinance requiring that a certificate be issued to every purchaser of a revolver. Perhaps the plan proposed for supplying people with revolvers only for special and legitimate purposes may be unconstitutional, but certainly the interests waging war upon the promiscuous carrying of firearms should find a way for the proper handling of the big problem.

College presidents of Illinois will probably declare that after all, there isn't much dependence to be placed on mental statistics. They were submitted to the much talked of freshman mental test and did not score as high as mar. You can prove and disprove most anything with the use of figures.

Since frequent complaint is made because Sunday golf interferes with church attendance, the president of one Chicago golf club has ordered the installation of a radio apparatus which will carry sermons to the players while on the golf links.

The president still has the further task of making the golfers listen, and perhaps it can't be done. This is on the old theory that you can lead a horse to water but you can't make him drink.

WORK SCHEDULE INCREASED AT CAPPS'

Mill Employees Accede to Firm's Suggestion When Competitive Conditions are Explained

A change has just been made effective at the mill of J. Capps & Sons, whereby 52½ hours per week is the schedule. This means an increase of four hours and a half a week by comparison with the 48 hour schedule which has been in effect since February 7, 1919. The change was made by the firm because of the necessity occasioned by existing business conditions. It was explained to the workers that the proposed schedule of 52½ working hours is several hours less than required by the average mill with which J. Capps & Sons must compete. In the east the mills are operating on a 6 hour schedule.

Under the present plan the hours for the mill workers are from 7 to 12 o'clock and from 1 to 5:30 five days a week and from 7 to 12 on Saturday. For some months past J. Capps & Sons have been trying to avoid this change in schedule but the competition for business is such and the necessity of low prices for the product of the mill so great, that the time came when it was necessary to adopt the longer schedule.

It is also provided that overtime shall be paid for at regular time instead of on a time and a half basis. Notice to this effect was issued to the workers last Saturday. Subsequently a petition was circulated asking the firm to reconsider the action and to maintain a nine hour day and time and a half for overtime. In replying J. Capps & Sons outlined further the general conditions of competition which had resulted in the change of schedule and stated further that the matter of overtime need not cause much concern, because under present conditions there is no expectation of the need of overtime production.

The firm sought to make clear their desire to keep the mill running if this could be accomplished without the loss of money. Members of the firm stated privately that the matter of difficult business conditions for woolen mills the past two years had been a matter of common knowledge, and further that very substantial losses had been met.

The Community sing and social planned by Literberry Baptist church for Saturday evening has been indefinitely postponed on account of illness of the pastor's wife.

H. J. RUCKER TO LEAVE LOCAL WORK

Farm Bureau Curtailment Plan Results in Release of Capable Associate Adviser.

Many Morgan county farmers will regret to know that H. J. Rucker, associate farm adviser, has completed his work here, for it has been a successful work. At the December meeting of the executive committee of the farm bureau it was decided to cut down the operating expenses of the bureau and this necessitated the releasing of Mr. Rucker at the close of his year's work Feb. 15.

Mr. Rucker served during the year as secretary of the Morgan county Fair association and was very active in organizing the county under the national program of livestock marketing through local shipping associations. With his encouragement an association has been organized at each large shipping point. He has also done work in developing interest in better bred livestock, and has also been very active with various farm demonstrations of value to members of the bureau.

Because of these successful activities many will be sorry to know that Mr. Rucker is leaving the work here, as he has made many friends during his period of service. Many of those friends feel that the associate adviser was just getting the livestock work organized in such a way that still more valuable service could be rendered the farmers.

NEW CLOTHING PLANT NOW IN OPERATION

Rothchild Clothing Factory Begins Operations With Twenty Machines—Adding to Force Daily.

The clothing factory which Felix Rothchild has just completed the corner of West and North in this city is now in operation at streets. Forty machines have been installed and twenty of these are already in use, with operators being added daily to the force.

The machines are located on one side of the upper floor, and the other side is devoted to the coat, vest and pant shop and the pressing department. The lower floor is not yet complete, but it will contain the cutting and trimming departments. It is the expectation to have this floor ready for occupancy within a very short time.

A large number of applicants are on the waiting list and as fast as possible workers are being added to the force. The growth of the new industry is of necessity a slow process but it is the intention of the management to make every possible effort to enlarge the business as time goes on.

COMMITTEE ON
SERVICE PAY
FINISHES WORK

Report Bill That It is Said Will Save Millions

(By The Associated Press) WASHINGTON, Feb. 22.—The joint congressional service pay commission completed its work today and ordered favorably reported to the house and senate a bill providing a new basis of pay for the personnel of the army, navy, marine corps, coast guard, public health service and the coast and geodetic survey. The measure, its framers hope will save the government ultimately a total of \$28,600,000 annually in the pay of the six services, based on the present strength of each.

For the fiscal year 1923, the new rate of pay under the bill would reduce the total of the budget for the six services by approximately \$13,000,000 according to an estimate by Chairman Wadsworth. In the five years thereafter, a further reduction of \$9,480,000 would be accomplished annually provided the strength of the services remained unchanged. After that time the "ultimate" saving would be \$28,600,000 a year, according to figures which the commission will submit to the two houses of congress when the measures formally reported.

"They feel that this measure embodies the most scientifically drawn pay rate that this government ever has had," said Chairman Wadsworth.

WESLEYAN DEFEATS
ILLINOIS COLLEGE

Take Final Home From Blue and White By Score of 36 to 26—Haussler, Mace and Zinser Do Some Wonderful Shooting.

Wesleyan University defeated Illinois College in the final home game of the season in David Prince gymnasium last night by a score of 36 to 26.

It was the fastest game local fans have seen this year and the contest was one in which Illinois surprised Wesleyan by the guest she put up. Wesleyan defeated Illinois in easy fashion in a game played at Wesleyan earlier in the season and the visitors evidently did not expect much opposition in last night's game.

But it was a battle royal from start to finish and only wonderful shooting by Haussler, Mace and Zinser saved the day for Wesleyan. In the first half Haussler shot three baskets in succession from near the center of the floor. These counters were made in less than one minute's time and for a time took the heart out of Illinois. At that time Illinois had nearly closed the gap and were on the verge of tying the score.

When the half ended Wesleyan was leading by a score of 22 to 13. In the second half Illinois came back fighting and by some excellent team work and shooting piled up several points before Wesleyan broke the ice. The blue and white fought their way to a near tie with the visitors as Wesleyan's players seemed to temporarily have lost the range of the basket.

However, Wesleyan managed to get to going and were able to maintain their lead until the final whistle. Had Illinois continued their style of play in trying long shots through the half instead of trying to feed the ball to some one for a close shot it is probable they would have had a larger score and might have turned the tide and gained victory.

Haussler is undoubtedly one of the best shots in minor college basketball when he is right. He surely was right last night for he was able to toss them from any place. In his free throws he had the goddess of luck with him. All he had to do it seemed was to get the ball in the place on the hoop and it would wobble around and fall in. Mace also proved deadly at long shots while Zinser was a close runnerup to him.

For Illinois Cully again played a wonderful game. Not only did he guard well but he led in scoring with four field baskets. Mellon did good work in free throwing getting six out of eight tries. Dale negotiated two baskets and Matt one. Antrobus was shoved into the fray late in the second half in place of light and scored two from the field before the final whistle. Jones again demonstrated he is one of the best guards in the Conference by his work.

While Illinois lost the game the fans had a run for their money. Coach Simpson's men also showed greatly improved form over that against Bradley and Illinois Normal. The men found the Wesleyan defense easier to penetrate than that of Bradley or St. Viators and had they been accurate on baskets the game would have been placed on Illinois' side of the ledger.

WANT PLACES FOR
BASKETBALL PLAYERS

Big preparations are under way for the coming basketball tournament which convenes here March 2 and 4. At this tournament the hotels and private houses are taxed to the limit to care for the visiting teams and the crowds that attend.

Many have already made their reservations. The teams of Meredosia, Bluffs, Rushville and White Hall will be quartered in the Dunlap House, and Versailles, Murrayville and Franklin will be the guests of the Pacific Hotel. There will be need for caring for many more than the hotels can accommodate and the private homes of Jacksonville must supply accommodations.

Principal Shafer of the High School is booking beds for the students and asks that all who have one or more spare bed rooms in their homes to communicate with him at the high school office telephone No. 1701.

There is a maximum allowance of \$1 to students of the ball teams for beds.

WILL HAVE RESERVED
SEATS FOR ROOTERS

Principal B. F. Shafer of the local high school received a communication yesterday from the principal of Springfield high school stating that a section of seats would be reserved for Jacksonville spectators at the Springfield-Jacksonville high school basketball game Saturday night.

"Dear Sir:—I have lost—and cannot tell where—an old favorite penknife—and much distressed for want of one. If you have any in your store please do send me one and if you haven't, be so good as to get one immediately. Perhaps Mr. Bailey could furnish me. One with two blades I should prefer where choice can be had."

Mr. Ebbs explained he did not know to whom the letter was addressed, but that his grandfather, Josiah Essex, was born in Virginia in 1803.

PROGRESS ON ITS
REVENUE ARTICLE

Four Sections Proposed by the Committee Are Adopted

SPRINGFIELD, Ill., Feb. 22.—Step by step the constitutional convention progressed tonight toward solution of its tax problems.

Four sections of the revenue article proposed by the special committee had been adopted on second reading and referred to the committee on phraseology and style when the convention recessed for dinner to meet again at 8 o'clock.

Section 1:—The power of taxation shall never be surrendered, suspended or contracted away. All taxes shall be levied and collected under general law and for public purposes only.

Section 2:—The general assembly shall provide for the levy of taxes on property by valuation so that every person or corporation shall pay a tax in proportion to the value of his, her or its property, such value to be ascertained by some persons of person to be elected or appointed in such manner as the general assembly shall direct and not otherwise.

Section 3:—In lieu of any tax by valuation thereon the general assembly may provide a tax on all incomes derived from intangible property or any kind or class thereof. Such income tax shall be uniform and substantial. There shall be no exemptions from such income tax except as provided in section eight of this article.

Section 4:—A general income tax may be levied also on all income. If the income tax be graded and progressive the highest rate shall not exceed three times the lowest rate. Section one was adopted by a vote of 55 to 9; section two by 54 to 2; section three by 52 to 9 and section four by 53 to 8.

The required number of votes for adoption of any proposal is 52.

TROUBLE FALLS ON
THE RYAN FAMILY

(By The Associated Press) NEW YORK, Feb. 22.—Trouble has fallen heavily of late upon the family of Sergeant William Joseph Ryan of Brooklyn, killed in the Roma accident.

Reading and re-reading the official notification of her son's death sent her by army authorities the boy's mother said today: "I am hoping against hope that they have made a mistake. My boy was such a good son. His enlistment would have been up in a few months and he would have been home with us again."

"We have had so much misfortune recently. Three of the children have just had pneumonia, another has the measles, another was run over by a motor car and little Agnes has just come back from the hospital where she was operated upon for appendicitis."

PEACE DOLLARS NOW
IN CIRCULATION HERE

Some of the already famous peace dollars are on view in the window of the Farmers State Bank & Trust Co., and a few have been sent in circulation by this bank. One side of the beautifully designed dollar gives the head of "Liberty" and the famous phrase, "In God We Trust," surmounting the year mark of 1922.

The reverse side has the lettering: "United States of America, E Pluribus Unum" surmounting the American eagle. The one significant word "Peace" is just below the eagle. The design of the peace dollar as a whole is one of the handsomest that has ever come from the American mints.

OF MURDERED MAN

CHICAGO, Feb. 22.—The body of a man bound hand and foot with the skull crushed and a gag inserted in the mouth was found underneath an old barn on the south side of the city today.

Beside the body was a black velvet hat and a blood stained brick which apparently had been used to crush the man's head. He was 30 to 35 years old and wore a suit of clothes purchased at a St. Louis department store. The only clue to his identity was the initials "J. E. W." found in the hat.

The body was found by two boys. According to the police, the man had been dead about a month.

DOKAYS TO PLAY
VIRGINIA TEAM

The victorious basketball team of the Dokays, after having captured the local championship of all Jacksonville's independent outdoor fields to conquer. They are to play the Virginia independents, at David Prince gym February 27.

The Virginia team met the Knights of Columbus early in the season and defeated them and it is very probable that the Dokays will find the Virginia team a harder proposition than they did the K. of C.

Manager Siegfried of the Dokays states that if he can rally the proper support in the form of attendance he will arrange for some mighty good teams to come to Jacksonville in the near future. It is highly probable that the Myers Brothers five of Springfield will be booked for a game and an effort will be made to book the Moline Central Athletic association's team. There will be some expense to bring these teams to Jacksonville and if they can be shown the support that should be given the enterprise these teams and others will be brought and basket ball fans will be given some fast exhibitions.

PICTURES MISERY OF JEWS IN RUSSIA

Judge Harry Fisher Tells of the Ruthless Murder of Thousands—Local Committee Seeks Funds.

The Morgan county committee for Jewish relief is receiving numerous subscriptions for the fund but the county quota is far from met. Ben. Cohen is the county chairman and checks for the fund should be sent to him.

The conditions which require this relief work were described in a statement by Judge Harry Fisher made recently in the Chicago Tribune.

"Men and women wept last night in Temple Sholem, Grace street and Pine Grove avenue, when Judge Harry M. Fisher, pleading for Chicago Jews to contribute their quota of \$1,250,000 towards the relief of Jewish sufferers in the Ukraine, drew a picture of the perpetual pogrom which is in progress in Russia today.

Not one penny of the \$47,000,000 relief fund recently raised, he said, went towards alleviating the misery in the Ukraine, and for that reason a nation-wide drive for a separate fund of \$14,000,000 has been launched.

"Overwhelming Misery.

"He described a visit to a hospital in Vilna, where 150 patients stricken with typhus, infested with vermin and covered only with such dirty rags as they had brought from home, lay crowded into fifty-three rickety beds. He told of a road to Lodz—a virtual cemetery 600 kilometers long—strewn on both sides with the bodies of homeless wanderers who had dropped from starvation in their quest for food.

I have evidence of more than 2,000 pogroms in the Ukraine since 1917," he said. "It has been a continuous pogrom. Eight hundred thousand Jews have been driven from their homes since the outbreak of the revolution. Two hundred and fifty thousand have been murdered. Two thousand were slaughtered in Proskurov during a two or three hour pogrom. They wasted no powder or bullets there. They went from house to house and used the steel.

"Babies Are Bayoneted.

"They picked babies on their bayonets and pitched them out of the windows into the streets. The peasants several days later put 1,260 bodies into one hole and covered them up. I shed a tear for the Jews of Chicago as I stood by this grave.

"I do not say these things to arouse hatred against those responsible. The men who have done these things are themselves wild and hungry and have lost

all sense of moral responsibility.

"I am asked: Why is it necessary for separate Jewish relief? Ought we not to join with the rest and just take care of the needy? If the Jews in eastern Europe were not any worse off than the rest, miserable as they may be, I would say it is not necessary.

"But through the generosity of the government Mr. Hoover has been enabled at last to bring relief to these peoples in the Ukraine and we are helping him if we do not do it now we, the Jews of America, are going to suffer. They are breeding a generation of beasts in eastern Europe.

"Return of Typhus. "They feel that God has abandoned them. We in America are the only healthy, normal Jews left anywhere. Those in Europe are in complete demoralization. And they are the children of the bankers, lawyers, professors and merchant princes—their parents, long since killed by the ravages of disease, were the same as you a few years ago.

"And now that fall is here there comes a return of that disease, the typhus, that kills 1 percent of those under 20 years of age, 11 percent of those between 20 and 35, and exacts a toll of 37 percent of those above 35.

"And the worst is yet to come. It is reported that Pellura and his army are again moving on Kiev. The bloodshed and misery that will follow his arrival there should make this entire nation shudder."

ELMER GROSSMAN SUFFERS INJURY

Elmer Grossman, warehouse foreman for Andre and Andre Furniture company, was seriously injured yesterday morning when he fell down the elevator shaft at the company's store on the north side of the square. The accident occurred about 11 o'clock when Grossman was at work in the store on the first floor. He went to the elevator and although the door was shut and the elevator was at the second floor at the time, Mr. Grossman opened the door and, apparently thinking the elevator was at the first floor, stepped out into the open shaft, falling some twelve feet.

When the injured man was picked up it was found that he had fallen in such a way as to strike his head and the skull was badly crushed. He was rushed to Our Savior's hospital and there was given medical attention. He was unconscious at the time he was picked up and did not regain consciousness for a number of hours. While the injury is considered serious physicians think that the injured man will recover. Mr. Grossman resided at 325 East North street.

Our Obligation To Sell GOOD CLOTHES

In times like these when the call for lower prices tempts many to reduce quality standards, we feel most keenly our obligation to continue to sell none but GOOD CLOTHES.

We are meeting the demand for lower prices by selling on a greatly reduced margin of profit but still adhering to our standard of quality.

J. H. CLIFFORD DIES AT VIRGINIA HOME

Deceased Had Been Cass County Resident Many Years—A Civil War Veteran.

Jacksonville Young Man in Rangoon Tells of Visit of Prince of Wales—Notes of Travel

In a recent letter to a friend in Jacksonville Wayne Gard, who is now instructor in English at Cushing high school at Rangoon, Burma, mentions some of his interesting experiences in that far off land. He said:

"The visit of His Royal Highness, the Prince of Wales, is the chief topic for conversation in Rangoon these days. The Prince landed here Monday morning and left last night for Mandalay. He will return here within a few days, and will sail for Madras January 12. The reception of the Prince by the people of India has been none too cordial, despite the British press reports which have gone out. I made no attempt to get myself presented to the Prince in person, though I am not at all sure that I could not have succeeded. Monday I saw him at close range and secured a picture, and yesterday I signed my name in the autograph book which he has carried with him on his travels since 1919.

"Most of my Christmas holidays I spent at Moumein, over toward the border of Siam—a twelve hour trip from here by train. There I had a most enjoyable time, climbing mountains, exploring caves, visiting old pagodas and going on jungle trips. For the first time I rode in an ox-cart, and saw men tapping sugar-palms for the juice from which palm sugar is made.

"For our first hot season—April and May—my roommate and I have engaged a room at Maymya, in northern Burma. This will enable us to visit Mandalay, the old Burmese capital. Next year we are hoping to go to Darjeeling, where we will be within sight of Mount Everest, the highest mountain in the world."

SALVATION ARMY REPORTS APPROVED

Quarterly Meeting of County Advisory Board Held Yesterday—Funds Not Sufficient for Year's Work.

At a meeting of the advisory board of the Salvation Army at the Chamber of Commerce rooms Wednesday morning, reports of officers were read and approved and some plans discussed for the further financing of the work. Motion was made expressing the hope that the united budget committee may find it possible to continue its work until the quotas of the various organizations have been reached. If this is not done after the next three or four months has passed, those interested in the work of the army will find it necessary to make a special campaign for funds.

At this meeting Lieut. Hall of the Salvation Army presented facts and figures for the months of December and January, showing a large number of garments distributed, food given to the needy, together with coal and some other supplies. The statistics were also made available for the number of religious services held by the army at the headquarters, in the jail and on the streets.

GOVERNOR SMALL GRANTS REPRIEVE TO JOHN SAVANT

Will Permit Board of Pardons to Review the Case

SPRINGFIELD, Ill., Feb. 22.—Governor Small today granted a reprieve to John Savant, slayer of Fritz Hecht, grocery boy at Valiers, Franklin county, until April 21. Savant was under sentence to die on the gallows next Friday. The reprieve was granted to permit the pardon board to review the case.

The governor's office plans to communicate tomorrow with Sheriff Watson of Franklin county following a report here tonight that the sheriff asserted he would hang Savant Friday in the event the reprieve, mailed today, failed to arrive in Benton by Friday morning.

Petitions bearing a large number of signatures of Franklin county citizens are said to be on their way to Springfield with the applications for commutation of sentence.

COURT RULES CITY EXCEEDED AUTHORITY

SPRINGFIELD, Ill., Feb. 22.—Altho holding that the city of Chicago exceeded its authority in quarantining Jennie Barmore, alleged "typhoid carrier," the Illinois supreme court ruled today that the city health department upon authority from the state health department could, as agent for the state department, hold the women in modified quarantine during a period when she is believed to carry typhoid germs altho not a sufferer from the disease herself. The supreme court's opinion was a lengthy document which contrasted constitutional liberties and health authorities on power of quarantine.

The Barmore woman challenged the right of the city health department to restrain her liberty after an examination classed her as a "carrier" of disease. With its authority questioned, the city department appealed to the state department, which established the quarantine on the report of city authorities.

TUD KENT WINS BIG DOG RACE

Ashton, Idaho, Feb. 22.—Tud Kent, winner of last year's dog derby here won today's classic. His time was two hours and 35 minutes. The time was slower than the world record he made last year but considered remarkable under the existing weather and trail conditions.

First time I met him, I said:— "There's some one to tie to"

Smith was telling how real quality needed no second introduction.

And that's the testimony so many people have given about Grape-Nuts. They didn't have to learn to like it.

Wheat and malted barley, skilfully blended, and slowly baked for 20 hours, in our great, sanitary food factories, are developed into a natural sweetness, richness and crispness that make an immediate appeal to the taste. The exceptional nourishment

which Nature places in these best of the food grains is perfected for complete and ready digestion and assimilation.

Grape-Nuts builds for health and accomplishment.

A delightful breakfast or luncheon cereal, with cream or milk (ready to eat from the package); delicious when made into a pudding for dinner.

Ask your grocer to send you, or your waiter to serve you, this splendid food today.
